

Ethan Brooks

DevOps / Platform Engineer | ethan.brooks@example.net | +1-555-0166 | Denver, CO | github.com/ethan-brooks | ethanbrooks.example.net

SUMMARY

Platform engineer with 9 years of experience running Kubernetes, CI/CD, observability, and cloud infrastructure.

SKILLS

Kubernetes, Terraform, AWS, GitHub Actions, Prometheus, Grafana, Python, Linux, Helm, SRE practices

EXPERIENCE

Lead Platform Engineer - SummitGrid | Denver, CO | Apr 2022 - Present

- Led migration from hand-built EC2 services to Kubernetes across 43 workloads.
- Cut deployment lead time from weekly releases to daily self-service deployments.
- Standardized Terraform modules for networking, secrets, and service accounts.
- Established SLO dashboards and on-call runbooks for customer-facing APIs.

DevOps Engineer - Blue Mesa Health | Remote | Feb 2018 - Mar 2022

- Built CI/CD pipelines using GitHub Actions, Docker, and Helm charts.
- Implemented Prometheus alert rules and Grafana dashboards for clinical services.
- Reduced cloud spend by 22% using right-sizing and reserved capacity planning.
- Created Python scripts for environment validation and certificate rotation.

Linux Systems Engineer - CivicHost | Boulder, CO | Aug 2015 - Jan 2018

- Maintained Linux fleets, Nginx, Postgres backups, and monitoring agents.
- Documented incident response procedures and postmortem templates.
- Automated server provisioning with shell scripts and Ansible.

PROJECTS

Internal Developer Portal: Cataloged 120 services with ownership, repo links, runbooks, and deployment history.

Cost Anomaly Bot: Posted daily AWS spend outliers to Slack with owner tags and links to dashboards.

EDUCATION

B.S. Network Engineering - University of Colorado Denver (2011 - 2015)

CERTIFICATIONS

- Certified Kubernetes Administrator, 2024
- HashiCorp Terraform Associate, 2023
